

Rabbit IgG Control (Whole Molecule), Purified**Cat. No.:** A01008**Size:** 4 mg**Synonyms:** Purified Rabbit IgG (Whole Molecule);**Description:**

GenScript **Purified Rabbit IgG (Whole Molecule) Control** is highly purified from normal rabbit serum by Protein G chromatography.

GenScript Purified Rabbit IgG (Whole Molecule) Control is suitable for use as control, standard, blocking agent, or coating protein in a variety of assays, including ELISA, immunoblotting (Dot blot and Western blot), immunoprecipitation, immunodiffusion, and immunoelectrophoresis. It also may be used as antigen or ligand in immunochemical reactions and conjugations.

Host: Rabbit**Conjugation:** Unconjugated**Formulation:**

4 mg/ml, lyophilized with PBS, pH 7.4, containing 0.02% sodium azide

Ig Subclass: Rabbit IgG**Specificity:** Not applicable**Purification:** Protein G chromatography**Applications:**

User-optimized

Reconstitution:

Reconstitute the lyophilized powder with deionized water (or equivalent) to an final concentration of 4 mg/ml.

Storage:

The antibody is stable in lyophilized form if stored at -20°C or below. The reconstituted antibody can be stored for 2-3 weeks at 2-8°C. For long term storage, aliquot and store at -20°C or below. Avoid repeated freezing and thawing cycles.
